Qubik Accounting: Reactivating 3,800 Existing Leads

Prepared for: Qubik Accounting

Prepared by: Vinaygopal Mawandia · ⟦DATE⟧

Goal: turn about 3,800 past enquiries and contacts into booked conversations and new accounting clients within 90 days, with Dominic's Facebook reel as the lead creative.

Run-rate figures are planning estimates, replaced by real numbers after the first wave.

1. Why this list, and why now

These are people who have already shown interest in Qubik. Bringing them back costs mostly time and a small retargeting budget, not new-audience ad spend. The timing helps too. Individual tax season has just closed, and owners are now thinking about cash flow, next year's tax position, and whether their accountant is actually helping them. That's the opening for a "let's look at your year ahead" conversation, well before the EOFY rush.

2. Next steps

1. **Export and audit (days 1–3).**
   - Pull the full list with source, date captured, last contact, consent, and whether each contact is a business or an individual.
   - Remove duplicates, bounced and invalid emails, and current clients.
   - Check mobile numbers against the Do Not Call Register before any calls.
1. **Segment (days 3–5).**
   - **A: businesses, enquired or lapsed in the last 2 years.** Dominic or a senior accountant calls them personally.
   - **B: older business enquiries.** Email and SMS, plus Meta retargeting.
   - **C: individuals, very old records, or no record of consent.** Meta custom audience only, or excluded.
1. **Consent check.**
   - Email and SMS go only where consent was given or can reasonably be inferred from a past enquiry or client relationship with Qubik.
   - Every message identifies Qubik and carries a working unsubscribe, actioned within 5 working days (ACMA).
   - Anyone uncertain goes into the Meta audience rather than the inbox, once the privacy policy covers it.
   - *Confirm this with Qubik's privacy adviser.*
1. **Offers to test** (one per wave, so we learn which works):
   - **Business owners:** a free 30-minute "year-ahead" review covering tax position, cash flow and the structure for 2026–27, leading to Business Basics or Business Advisory Solutions.
   - **"Is your accountant helping you grow?":** a free second opinion on last year's return or BAS for owners thinking of switching.
   - **Optional, A$3M+ businesses only:** an introduction to Qubik's new AI & Automation service. This is tagged separately so it doesn't blur the accounting results.
1. **The message.** A short note from Dominic carrying the reel: "It's been a while since we spoke. Here's a 60-second look at what we're doing for businesses like yours [reel]. Want a free 30-minute look at your year ahead?" People can reply, use the booking link, or take a call from the team.
2. **Send in waves.**
   - **Wave 1** (days 8–14): about 600 contacts from segment A and the best of B.
   - **Waves 2–3** (days 15–30): the rest of the contactable list, using whatever worked in wave 1.
1. **Retargeting.** Upload all contactable leads to Meta as a custom audience (hashed). Show them the reel for 30 days, then a second, offer-led ad to anyone who watched at least half of it.
2. **Follow-up and the EOFY wave.**
   - Two follow-ups over 10 days.
   - Everyone else gets a useful monthly email: a tax tip, a deadline reminder, a short client story.
   - A second, bigger wave goes out in **April–May** for EOFY tax planning, the peak buying window for accounting.

3. Thresholds per wave

Signal	Keep going	Change something	Stop
Reply or booking rate	2%+	1–2%: rewrite the message or switch offer	Under 1%
Unsubscribes and complaints	Under 1%	—	Over 1%: stop and review the list and message
Email bounces	Under 3%	3–5%: clean the list	Over 5%, or any spam block: stop email and fix the sending domain

Send from a **separate sending domain**, so qubik.com.au's email reputation is protected while old addresses are tested.

4. Run rate (estimate)

Step	Conservative	Base	Assumption
Leads on file	3,800	3,800	

Step	Conservative	Base	Assumption
Contactable after clean-up and consent	2,300	2,700	60–70% survive the audit
Respond or book	45	80	2–3% across email, SMS, calls and retargeting
Qualified (a fit for Qubik's services)	18	32	40%
Meetings held	13	22	70% show up
New clients	4	9	30–40% of meetings; warm leads close better than cold
New annual fees	4 × ⟦average annual fee⟧	9 × ⟦average annual fee⟧	Illustration: at A$4,000 a year, A$16,000–36,000 of recurring fees

Accounting fees recur, so each new client keeps paying in later years. The value of the list is therefore larger than the first-year numbers suggest.

5. Budget (estimate, ex GST)

Item	Range
Meta retargeting (reel, then offer ad)	A$300–600 a month for 2–3 months
SMS	Cents per message, roughly A$100–250 for all waves
Email sending tool and separate domain	Free to about A$50 a month
Total over about 90 days	**About A$700–2,200**

6. Timeline

When	What
Week 1	Export, audit, segment, consent check; reel and messages ready
Week 2	Wave 1 (~600); personal calls to segment A; retargeting live
Weeks 3–4	Waves 2–3; first review meetings and first new clients
Weeks 5–8	Follow-ups; engagement letters signed; first fees invoiced
Weeks 9–12	Second-touch campaign to people who engaged but didn't book; plan the April–May EOFY wave

7. Weekly report

By wave and segment, each week:

- contacts sent and delivered;
- replies and bookings;
- unsubscribes and bounces;
- meetings held;
- engagement letters sent;
- new clients and annual fee value;
- retargeting spend and results.

8. What I need to start

- The full export, with source, date, consent fields, and the business or individual flag.
- The reel itself: a video file, or access to it (the share link needs a Facebook login).
- Qubik Accounting's average annual fee per new business client, and what each package covers.
- Access to the CRM or email tool, and approval for a separate sending domain.
- A named person to make the calls to segment A.

Sources

- **ACMA:** Spam Act guidance (consent, sender identification, unsubscribe within 5 working days).
- **Do Not Call Register:** checking numbers before calling.
- **Qubik Accounting website:** service packages (Business Basics, Business Advisory Solutions).
