Qubik AI & Automation · Google Search Ads Test

Business process automation and AI implementation leads, Australia-wide

A$600	10–15 days	~75	2–6
test budget	A$40–60 a day	clicks	leads

Keywords

26 high-intent searches, such as "business process automation", "automation consultant", "workflow automation services", "AI implementation consultants", "AI agent development" and "AI readiness assessment". About 990 searches a month in Australia (Google Keyword Planner).

Expected numbers

For A$600	Lower case	Expected (Google forecast)
Clicks	33–43	~75
Average cost per click	A$14–18	~A$8
Leads (3–8% of clicks)	1–3	2–6
Cost per lead	A$175–600	A$100–270
Qualified leads (40–60% of leads)	0–2	1–4
Cost per qualified lead	A$300+	A$150–670

A$600 is a signal test. It shows whether the searches, clicks and landing page convert before a larger budget is committed.

What I will do

- Set up tracking on qubik.com.au: Tag Manager, GA4, Google Ads conversions.
- Build two landing pages (process automation; AI implementation) with a lead form that records the ad and keyword behind each lead.
- Build the campaign: 26 high-intent keywords, 4 ad groups, 138 negative keywords, ads and extensions.
- Clean up search terms on days 3 and 7; adjust bids and ads.
- Report results within 2 business days of the test ending, with a recommendation.

What I need from Qubik

- A Google Ads account owned by Qubik, in AUD on Brisbane time, with Qubik's billing and manager access for me.
- A$600 test budget approved, paid directly to Google.
- WordPress admin access, a current backup, and approval for Tag Manager and Fluent Forms.
- Sign-off on the offer and page wording: free 30-minute call, assessment price, Xero partner wording, Dominic's photo and testimonial.
- Someone to call new leads within 15 minutes in business hours and mark which ones qualify.
- Privacy policy updated for analytics and ad tracking.

Timeline

Before launch	About 5 working days: access, tracking, landing pages built and tested
Days 1–3	Campaign live; first search-term clean-up
Days 4–10	Optimise; mid-test check on day 7
Days 10–15	Test ends; report and recommendation within 2 business days

Decision after the test

Scale	1+ qualified lead, average cost per click A$15 or less, search terms relevant
Fix	Clicks arrive but no leads: change the landing page or offer, then re-test
Stop	Cost per click above A$20, or mostly irrelevant search terms after clean-up
